

Pre-Marking outlines your dig area so that utility operators can easily identify where you are proposing to dig. Pre-Marking must be done in either White Paint, White Flags, White Chalk, White Stakes or Flour.

Proposed Fence

Dashed lines along path of planned dig area.

Tree Removal

Circle around the planned dig area.

Installing Irrigation

Dashed lines along the path of the planned dig path.

Replacing a Mailbox

Bracket the corners of the planned dig area.

Installing Sod or Shrubs

Bracket the corners of the planned dig area.
